

Re-board® Basic is the is a lightweight yet exceptionally strong and fully recyclable paperboard. The unique engineered fluted core of Re-board® ensures excellent planar flatness combined with design flexibility to create almost any shape.

Re-board® Basic can be digitally printed or finished to with decorative laminates to achieve stunning results. It is a versatile board good printability and high performance.

Re-board® fluted core is tilted to 15°, a prize-winning design that recognize the original Re-board®. The engineered core allows the perfect strengths to weight ratio and enables a Re-board® sheet to be rapidly cut into any conceivable shape with perfect lines, angles and shapes. The accurate cutlines make mounting easy and reliable.

The Re-board® Basic liner is the strongest recovered paperboard in Europe, made from 100% recovered fibres from the Nordic countries.

Re-board® Basic liner and core contain no plastics and are made of 100% paper.

Certified Management Systems

Re-board® Basic is produced in Norrköping, Sweden.

The production facility is FSC Chain of Custody certified according to FSC-STD-40-400

Re-board® Basic contains no harmful components and utilizes water-based adhesives. The board can be recycled as paper in normal wastepaper streams found throughout the world.

Re-board® is the first rigid paperboard in the world to independently measure its CO2 emissions. Based on CEPI and ISO 14040 guidelines.

Technical specifications

Length (mm)	1500 to 3500
With (mm)	1220 and 1600
Thickness (mm)	Standard 10 and 16 Range: 5-30
Weight (kg/sqm)	1.3 (10 mm), 1.7 (16 mm)
Whiteness (D65/10 %) ISO 11475	84
Brightness (R457 %) ISO 2470	79
Gloss Hunter (%) ISO 82541-1	35
Smoothness PPS 10 µm ISO 8791-4	2,3
